FINANCE AND DATA ANALYTICS EXPERIENCE

Business & Market Analyst, Olivia Group, Mumbai, India *Summer 2026*

- Built historical and forward sales forecasting workbooks for soap noodle and refined glycerine exports, organized by shipment month
- Conducted market research on emerging export destinations, including import duty structures and competitive positioning, to support market-entry decisions
- Prepared a palm oil and oleochemical market briefing used to inform trading and procurement strategy
- Reviewed a joint operation agreement between manufacturing partners and drafted terms to prevent buyer-supplier disintermediation
- Supported exhibition planning for Gulfood 2027, including space evaluation at Dubai World Trade Centre

Wealth Management Intern, 360 ONE Wealth, Mumbai, India *Summer 2025*

- Selected for the competitive Young Leaders Program focused on private wealth advisory
- Built and presented a diversified HNI portfolio spanning equities and fixed income, balancing liquidity, tax efficiency, and estate planning
- Evaluated asset allocation strategies across equities, fixed income, and alternative investments for HNI clients

Research Intern, Dalal & Broacha Stock Broking Pvt Ltd, Mumbai, India *Summer 2024*

- Produced equity research and investment reports on NSE-listed companies that informed client portfolio decisions
- Built DCF models and valuation frameworks to assess intrinsic value of NSE-listed companies
- Delivered weekly stock recommendations to the team, benchmarked against market indices

Data-Driven Process Engineering Intern, PT. Indo Sultan Jaya, Jakarta, Indonesia *Summer 2024*

- Applied financial analytics to optimize cost in palm oil refining and soap manufacturing processes
- Automated production reporting, reducing manufacturing defects by 7% and improving margin performance
- Analyzed throughput impact on P&L sensitivity alongside supply chain teams

Data Analytics Intern, Cloudworks, Mumbai, India *Summer 2022*

- Analyzed 140K+ data points using R and SQL to identify pricing trends and product demand shifts
- Built time-series and regression models in R to forecast revenue, improving pipeline accuracy by 2.7%

LEADERSHIP EXPERIENCE

Founder, The Business Mindset *2021 – 2023*

- Founded a business content platform featuring interviews with 20+ Indian entrepreneurs, growing an audience of 5,000+

Co-Founder, Protein Plus *2019 – 2023*

- Scaled a high-protein bread product to schools and trade fairs through direct partnerships; generated INR 55,000+ in revenue; 2nd place, Young Entrepreneurs Academy

ACADEMIC PROJECTS, RESEARCH & ACTIVITIES

- Young Tycoons Business Challenge (2022): Designed a communication system for the hard-of-hearing community; ranked top 1% of 12,000+ participants
- Wharton Global Youth Program (2021): Managed a simulated \$100,000 investment portfolio and authored a strategy report on diversification and risk mitigation
- Factors Influencing Recidivism (2024): Applied machine learning algorithms to 12,000+ data points, improving prediction accuracy of repeat offenses
